Project Description

The goal of your project proposal is to describe the game we plan to create. The game is a standard invaders game. There is a weapon and that's hit the enemies that are at the top by shooting of weapon, the player has to hit the enemy and every time you hit an enemy your point increases and the enemy slowly come down if touches your weapon you will lose and the score will show you how many enemies you have shoot .Everyone can play this game.

Programming Language

- Python

Requirements

- Py game
- Python libraries

We are using PyCharm to write our code.

Features

- Moving characters
- Shooting
- Killing enemy
- Score

Contribution

We separate our full work (design and functional work) in two part.

Md.Rakibul Alam: I will do the first part design and half of functional work.

Nowfal Ahamed Shawon: I will do the second part the rest functional work.
